**Attachments:** smime.p7s

Lawrence,

My understanding is that this afternoon Wayne also sent to the Navy the BPRG calculations mentioned in our letter that Oak Ridge National Laboratory helped with.

We don't have specific results from the ACOE Radiation Safety Support Team to share. At a later date there may be an ACOE technical report but it is still in development.

Regarding Concord, I am not familiar with the site situation and will discuss with John and his team next week and get back to you. Both John and I are out of the office tomorrow but if you want to discuss further, we can talk next week.

Have a good weekend!  
Angeles

Angeles

Thanks for sending the HPS radiological consultation evaluation. Would you be able to share evaluation results from the ACOE Radiation Safety Support Team and Oak Ridge National Laboratory? Also, is this specific for HPS as we also have a pending radiological building evaluation at Concord? Thanks again for sending.

Regards  
Lawrence

Derek –

The attached letter provides the results of EPA's review of the Navy's evaluation of Radiological Building Remediation Goals for the Hunters Point Naval Shipyard Site. Please call or email with any questions.
